For further information on RSV eligibility visit: peterboroughpublichealth.ca/hcp-rsv/

Are the vaccine refrigeration temperature logs attached? Yes No → Vaccine will not be released

By submitting this order, I verify on behalf of the practice the following:

- Refrigerators have maintained temperatures between +2°C to +8°C and temperatures are documented twice daily
- Accurate temperature logs will be provided upon request and are kept on site until our next annual cold chain inspection
- All temperature excursions outside of +2°C to +8°C (if applicable) have been reported to and recommendations regarding usage of the effected vaccines have been implemented by the practice
- Contingency plan is in place if a power outage/cold chain incident occur (includes extra vaccine coolers, temp monitoring devices, etc.).

For questions regarding the Infant and High-Risk Children RSV Prevention Program please call 705-743-1000 x242.
